

smartSCMD-AC

Cloud compatible Web-based Access Management software with employee self service module

smartCOMMANDCONTROL is a web based access Management software especially designed to cater small, medium and large organizations. The software has very user friendly modular interface that is easy to operate with rich in functionality and also provides comprehensive various useful reports. Software has various other functions like Device configuration, Masters, Access Management etc..

Key Highlights

Access Anytime anywhere: Access Management & software can be accessed from anywhere anytime through internet.

Online Employee self Service: Using Browser employee can view their attendance; they can apply for leave/manual punch/tour entry/outdoor entry through internet with their login ID & password. Same way manager can online approve all application sent by employee.

Integrated HRMS, Payroll and Work Force Management Module: Separate integrated module of HRMS, Payroll and Work force management software for overall manpower operation and efficiency management.

Inclusive Access Management: Software facilitates to define various kinds of Access management rules and restrictions for devices. It could be at various levels e.g; Controller level, Reader Level, Employee level, Access Group level, location level, etc.

Device Management: It provides a user friendly interface to manage the Access and devices. All configurations of devices can be done through central software. It downloads the data scheduled/automatically and processes the data for generating various access and related reports.

Feature List:-

Architecture:

- Cloud Compatible
- Multi Company
- Multi location/Department
- Multi login users with rights
- Audit trail log (History)

Dashboard

- User level Dashboard
- Inclusive summary on dashboard
- Latest data display on dashboard
- Employee count as per login rights

Employee Management

- Configurable Employee Hierarchy
- Multiple employee categories
- Employee Type
- Employee status
- Employee photograph with other details

Access Management

- Time Zone (with Free time zone)
- Time Zone Synchronization
- Time slot
- Access level
- Access Level Group
- Holiday restriction (Reader Wise)
- Blacklist of employee
- Controller communication status
- Configurable delay time for two successive punch for same
- Centralize fingerprint Template Management
- Bulk upload of cards
- Support Maximum 9,999 controller
- Controller Reset command
- Door Open Time Configuration
- Facility Code supported
- Audit log
- Central Date & time Synchronization
- User wise Latest swipe display
- Controller wise Latest swipe display

Anti Passback

- APB Enable/Disable
- Hard APB
- Soft APB
- User wise
- Door wise

Database Management

- MS-SQL Server 2014 or, Higher
- Database backup
- Excel sheet Import for masters data

Masters

- Employee
- Company
- Locations
- Controllers
- Readers
- Department
- Designation
- Holiday
- Category

Access Report

- Employee activity status
- Employee master – Access
- Event
- First in last out
- IO Entry
- Access
- Audit master

PRODUCT SELECTION GUIDE

Model No	Description
SCMD-AC-100U	Smart I Command Control web based Software for 100 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-250U	Smart I Command Control web based Software for 250 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-500U	Smart I Command Control web based Software for 500 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-750U	Smart I Command Control web based Software for 750 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-1000U	Smart I Command Control web based Software for 1000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-2000U	Smart I Command Control web based Software for 2000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-3000U	Smart I Command Control web based Software for 3000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-4000U	Smart I Command Control web based Software for 4000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-5000U	Smart I Command Control web based Software for 5000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-10000U	Smart I Command Control web based Software for 10000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-15000U	Smart I Command Control web based Software for 15000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-25000U	Smart I Command Control web based Software for 25000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-50000U	Smart I Command Control web based Software for 50000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-75000U	Smart I Command Control web based Software for 75000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
SCMD-AC-100000U	Smart I Command Control web based Software for 100000 users, with smartCOMMAND, smartACCESS (Advance Access Management Module) & smartESS (Employee Self Service module)
